

# YATIN BERRY

[yatinberry201@gmail.com](mailto:yatinberry201@gmail.com) | +91-8375956537 | [LinkedIn](#) | [Github](#)

## Career Objective

Final-year Computer Science Engineering student with hands-on experience in Generative AI, prompt engineering, and LLM-based applications, gained through academic projects and industry exposure. Proficient in designing AI-driven systems, integrating APIs, and applying machine learning concepts to solve real-world problems. Seeking an entry-level role to contribute to innovative AI-driven projects while continuously enhancing technical expertise and delivering impactful results.

## Education

### Chandigarh University, Punjab, India

July 2022 – June 2026

- BE-CSE, CGPA- 8.01

### Lilawati Vidya Mandir Sr. Sec. School, Delhi, India

April 2021 – March 2022

- CBSE (Class XII), Aggregate: 88

### Lilawati Vidya Mandir Sr. Sec. School, Delhi, India

April 2019 – March 2020

- CBSE (Class X), Aggregate: 87.4

## Technical Skills

**Languages:** Java, Python, C++, SQL

**Backend:** FastAPI, Node.js, Express.js

**Frontend:** React.js, HTML, CSS, JavaScript

**Database:** MongoDB, Supabase

**AI/Gen AI:** OpenAI APIs, RAG, Prompt Engineering, LLM Applications

**Tools:** Git, Socket.io

## Experience

### HCLTech — Intern (Solutioning)

January 2026 – April 2026

- Designed prompt engineering strategies to generate structured and reliable outputs from Large Language Models.
- Integrated OpenAI APIs for text generation, embeddings, and Retrieval-Augmented Generation workflows.
- Identified prompt injection vulnerabilities and contributed to improving security and robustness of AI systems.

## Projects

### AI Tutor and Student Support System

[Live Demo](#) | [Github](#)

- Built an AI-powered tutoring platform using FastAPI, React, and LLM APIs for quiz generation and automated evaluation.
- Developed REST APIs for quiz generation, answer evaluation, and user authentication using FastAPI and Supabase.
- Designed structured JSON prompting and implemented prompt-injection safeguards to improve response reliability.

### Real-Time Chat Application

[Live Demo](#) | [Github](#)

- Built full-stack real-time chat system using MERN and Socket.io supporting instant messaging and chat rooms.
- Implemented authentication, CRUD messaging APIs, and persistent chat storage using MongoDB.

## Research Publications

- **Crime Investigation Analysis** – ITIDS 2025: Research on crime pattern identification and high-risk zone prediction using machine learning.
- **Computer Vision: Image Recognition & Event Detection** – ITIDS 2024: Investigated deep learning pipelines for object recognition and event detection.

## Academic and Extracurricular Achievements

- **Vice President** – Indian Society for Technical Education, Student Chapter, Chandigarh University  
Led and coordinated technical events, managed cross-functional teams, and contributed to organizing large-scale chapter initiatives.
- **Under Top 15:** HackWithChandigarh Hackathon.
- Bug Battle Royale Competition – 1<sup>st</sup> Runner Up.
